Capped Smart Pay **Budget** 2011-2012

ACT NOW
Limited Gallons
When Gallons are Sold
Program is Closed
June 28, 2011 or sooner

Benvenuti Oil is pleased to offer to our customers a choice of **Smart Pay Budget** or the newly improved **Capped Smart Pay Budget** for the 2011-2012 heating season. Both plans offer you the benefit of a low, affordable, monthly payment. You may also want to add a service contract or choose the, FREE, Auto-Pay option for additional savings!

With today's volatile market, it is advantageous to know your payment each month and our plans are designed to do just that. Our **Capped Smart Pay Budget** goes one step further and offers you additional protection. The **Capped Smart Pay Budget** automatically protects you from price spikes while also allowing you the benefit of lower prices. This program provides price and payment stability in a volatile market **by limiting your worst-case scenario** if prices go up and providing you savings with our lowest street price if prices fall.

Despite our best guesses, no one knows what will happen to oil prices this year. They could keep going up or they could suddenly drop to manageable levels. But there is one way we can help you no matter which direction prices go...**Capped Smart Pay Budget** plan!

Benvenuti will guarantee **Capped Smart Pay Budget** price protection to our customers who respond before **June 28, 2011 or when limited gallons are sold, whichever is sooner**. Don't delay. We have a limited supply of price-protected oil, which is available on a first-come, first-served basis. If this program is not for you, please keep watch for our 20th year of pre-buy oil in the next few months.

Date:					

Smart Pay Budget & Capped Smart Pay Budget Terms & Conditions: Capped Smart Pay Budget Plans: Your first budget payment is non-refundable and will be used to purchase your capped protected gallons. Incorrect Gallons Used To Figure Monthly Payment: The homeowner is ultimately responsible for the oil consumed in their home and if the gallons used exceeds the budgeted amount the cap WILL NOT apply to the overage gallons and the customer will owe an additional amount. The customer may not exceed a balance that is greater than 3 budget payments. If a balance exceeds 3 budget payments the customer will be required to pay an increased amount prior to the next service or delivery. Smart Pay Budget Plans (un-capped): You will be billed the full price of the oil delivered and the cap price WILL NOT apply. At the conclusion of this budget period, the customer agrees to pay any outstanding balance. Past Due Accounts: Failure to maintain your account in good standing will result in early termination from the budget plan. Early Termination/Liquidation Fee: If you terminate your budget plan in less than 12 months, you agree to pay an early termination and liquidation fee of \$150. Home Sales or Assignment: Upon the sale of a home, our customer may request a refund in writing to Benvenuti Oil. There is a \$50 administration fee deducted from the refund check. Automatic Oil Delivery: We require all our budget customers to be on automatic oil delivery & the customer agrees to receive all their oil from Benvenuti Oil. Upon the completion of the oil contract we will continue to deliver your oil automatically to ensure you don't run out which could cause home damage resulting in additional bills. If after 12 months from signing you wish to be removed from automatic delivery, please notify us in writing. Will Call Oil & Minimum Delivery: If a customer requests to call for each delivery (will call) there is a 150 gallon minimum delivery & if a customer fails to receive at least 100 gallons a \$50 charge will be billed to their account. Force Majeure: Duty to Perform: Benvenuti Oil Company, Inc or related parties will not be liable for any breach, delay or nonperformance hereunder which results from, in whole or in part, civil commotion, labor unrest, strike, war, fire, storms, embargoes, or other restrictions imposed by law, floods, other acts of God, or other impairment with the seller's supplier(s). Businesses and Non-Residential Customers: If the oil is used primarily for non-residential heating you are required to pay State of Connecticut Sales tax on your oil. Please add 6% to the total cost.
