2014 AAFCS/CT Late Afternoon Meeting Registration Form

Workshop I ~Recycling ~ Paul Nonnenmacher

Paul Nonnenmacher, Director of Public Affairs for the Connecticut Resources Recovery Authority, will address the issue of recycling in our daily lives. The discussion will center on the details of recycling and the message we as educators should be passing on to our students and the public in general.

Workshop II ~ Common Core ~ Janice Uerz

Faced with many demands of "keeping up with the academics", this work shop is designed to help you identify and integrate Common Core Strategies and Science, Technology, Engineering, & Math (STEM) into your FCS lessons. The FCS curriculum area is based on many principles that incorporate a real-world context. Are your students problem solving real world issues? Let's find out!
