

Information Regarding Public Hearing on Adoption for the Proposed

Plan of Conservation and Development-2015

Description: The proposed Plan represents a vision for the Town of Lisbon, including a statement of policies, goals and standards for the physical and economic development of the Town. The plan promotes the coordinated development of the community and recommends the most desirable use of land for residential, recreational, commercial, industrial, conservation and other purposes. It is an advisory document, but must be reviewed/updated every ten (10) years, as prescribed by the Connecticut General Statutes.

This update to the 2004 Plan was developed by the Lisbon Planning and Zoning Commission with the assistance of the professional planning consulting firm of Milone and Macbroom and the Commission's planning staff. The planning process included a number of public meetings, input by the commission, a community survey, and public input on issues affecting the Town. The public hearing is scheduled for March 15, 2016 at 6:00 P.M. in the Lisbon Central School Cafeteria.

The proposed Plan is required to be posted here on the Town's official website at least 35 days in advance of the public hearing on adoption. A copy of the proposed plan is also on file at the Town Clerk's office. Any questions regarding the proposed Plan and the scheduled public hearing may be directed to Michael J. Murphy, AICP, SCCOG Consulting Planner/Lisbon Town Planner, as principal staff for the Lisbon Planning and Zoning Commission. He may be reached directly at mjmurphy224@gmail.com or 860-885-8697.
