ACCUFAST® AF5 Document Folder

INNOVATIVE "LIGHT SET" FEATURE FOR FAST AND EASY SET-UP

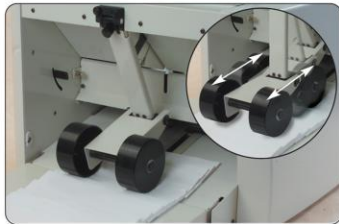

ACCUFAST's new AF5 Folder with the innovative "light set" feature provides extremely fast and accurate set-up and operation, virtually eliminating errors and waste. Operation is quick and easy...

Step 1: Select your fold type (A) and paper size (B).

Step 2: Set paper stops by simply sliding the stop levers (C) to match the LED indicator lights (D).

Step 3: Patented self-setting stacking rollers adjust automatically for standard folds.

Step 4: Set your speed and start folding... it's that easy!

EASY CLEANING:

Split fold table permits removal

Removable top roller

Removable kick-out roller

Paper capacity 400 sheets (20# bond)

OTHER FEATURES

- Patented self-setting stacking rollers for standard folds. Also, easily adjustable for custom folds.
- "Split table", allows the user to remove only the top half of the fold table for easy cleaning. No need to remove entire fold pocket. This is easier, lighter and also no power cables to connect.
- Both fold tables are mounted in a "V" pattern allowing the operator to quickly set both fold tables.
- Variable speed to maximize production output.
- Removable top and kick-out rollers for easy cleaning.
- Removable feed tires and separator.
- 14 gauge steel chassis provides the foundation for precise folds.
- Easy macro and micro paper stop adjustments.
- Half-fold setting is a snap.
- Easy skew and paper separator adjustments.
- Insulated for noise reduction, suitable for most office environments.
- Extended conveyor for neat and precise stacking providing greater throughput.
- Attractive design complements every office decor.
