VERITY SYSTEMS

Meteor^{SD}

Duplicate to multiple SD memory cards simultaneously

Supports synchronous and asynchronous copy modes

High-speed copy – up to 33MB/sec

Available with up to 63 target drives

Standalone – no PC required

Simple operation

The Meteor^{SD} PowerTower professional duplicator offers fast, efficient and convenient copies of your important data from erasable SD memory cards at a cost effective price. Available with 3, 7, 11, 15, 23, 39, 55 or 63 target drives, Meteor^{SD} PowerTower copiers are perfect for data-sensitive disc production with no PC intervention for minimum security risks.

With no PC or hard drive required the Meteor^{SD} offers a secure and reliable duplication service. A compact and stylish design coupled with a bit-by-bit compare function to confirm successful copies, makes the Meteor^{SD} a reliable, affordable and convenient SD card duplicator.

Advanced asynchronous duplication means no waiting and no interruption as each channel can independently load, unload and copy.

Rigorously tested for performance and reliability, Meteor PowerTowers are manufactured to strict quality control standards, delivering enhanced duplication at every level.

Meteor SD

Function:	Secure Digital Memory Card Duplication System
Supported Source Formats:	SD, SD Pro, Mini SD*, Mini SD Pro*, Micro SD*, SD HS, Wi-Fi SD, HC SD (*Adaptor Required)
Media Handling:	High speed SD cards up to 64Gb
Targets:	3, 7, 11,15, 23, 39, 55 or 63 target drives
Maximum Transfer Speeds:	Up to 30Mb/sec
Buffer Memory	256MB
LCD Display:	2x 16 Backlit
Copy Mode:	Synchronous or Asynchronous* *data file must be smaller than the buffer memory (256Mb)
Voltage:	115V or 230V
Operating Temperature:	41°F ~ 122°F
Operating Humidity:	15% ~ 90%
Regulations:	FCC, CE, UL, RoHS
Operation:	No PC Required

Warranty

12 months back to base, all parts and labor included.
2nd year excludes drives and carriage.
Extended warranties also available.
