NEXCOPY

PRO Series
USB Duplicator

Nexcopy introduces the newest member of our award winning USB Duplicator products, the USB200PRO. The USB200PRO is our flag ship product with advanced software features designed to create USB flash drives into sustainable business products.

The USB200PRO will easily create CD-ROM partitions, create devices with multiple drive letters, write protect partitions as Read Only volumes and much more.

The USB200PRO provides advanced controls over hard coded serial numbers such as prefix settings and serial number length. In addition, users may set Vendor ID and Product ID strings.
