

Transition Presentations

After the Cap & Gown

Planning for your child with Developmental Disabilities ages 15-21 as they transition from school into the world of adult services

Sponsored by The Arc Connecticut & The STAR Foundation

What happens when your child with developmental and/or intellectual disabilities turns 21? What questions should you be asking, what kind of plans should you be making and where do you go to find the answers?

The Arc Connecticut is offering *free* transition presentations created by a parent for parents.

WHO SHOULD ATTEND: Parents of children with developmental and/or intellectual disabilities ages 15-21.

"I have worked long and hard to give my son, Andy, a stable environment in which he is given every opportunity to live and enjoy his life to the best of his abilities.

This workshop reflects some of the challenges parents will be facing when making plans for their child as they enter the adult world."

- Lois Nitch

Mother of Andy, who lives in a group home, attends a day program and loves his life.
