April Tip: Beds and Borders

Clean Up Around Plants

Rake out fallen leaves and dead foliage, remove last years annuals. It is a fine time to divide plants and replant them. Fix borders to keep grass from growing into them.

Mulching

Mulches are an excellent way to reduce maintenance and conserve soil moisture, reducing the need to water. Mulches also help control weeds.

Fertilize

Now is a good time to spread fertilizer or toss in a wheelbarrow with other organic

We welcome the opportunity to discuss how we can meet your landscape needs, gladly providing the flexibility and responsiveness to get the work done. The same holds true for minor touch-ups, repairing weather damage, or fixing minor emergencies.

April is the perfect time to contact us for a landscape plan

Peter S. Turello, LLC can handle all of your **Spring 2012** landscape needs

Sod or Not to Sod?

Is it time for a new lawn, what is the answer, laying sod or sowing grass seed?

Seeding is

- Cheaper
- Wider variety of grass types
- Longer to establish

Sod is

- Instant lawn
- Faster
- Higher quality new lawn
- Less weeds
