

Going around in circles looking for
acute or chronic

PAIN MANAGEMENT?

**Access your body's own pharmacy by experiencing
non-invasive, FDA-registered medical devices**

The **SCENAR** is a device the size of a TV remote designed for the Russian space station to aid cosmonauts for pain, burns, cuts to eliminate the need for medication. When used as a pain management tool, it can quickly and effectively reduce new or chronic pain by talking to the nervous system. It then tells the body to send repair units (ATP and mitochondria) to the affected area for treatment.

Lie down on the **BioMat** & experience **RELAXATION**, THE FIRST STEP to alleviate pain and stress. The BioMat's warm, soothing far infrared rays improve circulation and relax nerves & muscles. Charged ions open up cell walls to release toxins and waste. Translation: you'll feel better!

"**WD-40 for the JOINTS**" is commonly heard by those drinking **MonaVie Active** as release of aches & pain is experienced. To ward off diseases the body needs 10-13 fruit servings per day according to the Center for Disease Control. Like life easy? Drink MonaVie 2 oz twice a day for your **FULL DAILY FRUIT** intake easy to digest and balance your body – see us for details.

Ionized alkaline water allows your body to better absorb vitamins and minerals. It also eliminates cellular wastes within 30 minutes as compared to 2 ½ hours with ordinary tap water. For home use, simply attach the **Alkal-Life™** unit to your sink faucet and never purchase bottled water again! Sample **Alkal-Life™** water for free while at the Center for your scheduled session with us. Bring your own container and *take home ionized alkaline water* (small fee applies).

At our Pain Management Clinic, we will work with you to assess & RESTORE balance to the affected areas.

Moving towards greater health and function TODAY!!!
